

From 25 to 27 March 2013, the Abdus Salam International Centre for Theoretical Physics (ICTP), in collaboration with SISSA, will organize the 38th Conference of the Middle European Cooperation in Statistical Physics, to be held at ICTP, Trieste, Italy. The event will be co-sponsored by CEI- Central European Initiative and EPL-Europhysics Letters.

The Conference is intended to cover recent developments in statistical physics and its interdisciplinary applications.
