

TALENTS UP is focused on the support of incoming mobility and offers 7 incoming fellowships, with the duration of 12 months each, addressed to experienced researchers of any nationality, intentioned to implement a research training project in one of the scientific institutions of the Coordination Network of FVG region or in one of the companies hosted in the regional Scientific and Technological Parks.

Fellows will have the opportunity to choose both the research topic and the hosting institution. In order to assign the 7 fellowships envisaged by the Project, one call for proposals will be published in the next days.

Proposals will be evaluated in Autumn 2013 and fellowship will have to start not later than the **2nd January 2014**.
