

Andrea Manzoni, a postdoctoral researcher at SISSA in the MathLab laboratory has been awarded with the 2013 ECCOMAS [PhD Olympiads Award for the best 2012 PhD thesis in Fluid Mechanics](#) with his 2012 thesis "Reduced Models for Optimal Control, Shape Optimization and Inverse Problems in Haemodynamics".

The "ECCOMAS PhD Olympiads", a selection for the two best PhD theses in Computational Methods in Applied Science and Engineering, have preceded the second Young Investigators Conference (YIC), organized in partnership with the "European Community of Computational Methods in Applied Sciences" (ECCOMAS).
