

To keep step with the growing demand for mobility and globalisation, Wallonia-Brussels International (WBI) has set up an excellence grant programme.

The programme awards:

1. Doctoral grants of a minimum duration of 1 year, renewable up to a maximum of three times.
2. Postdoctoral grants of a minimum duration of 1 year, renewable only once.
3. Short doctoral or postdoctoral research grants (of between 1 and 3 months). These are designed to fund research programmes exclusively within the university framework.
