

Ph.D course in Functional and Structural Genomics

Head of the Ph.D course: Prof. Giuseppe Legname

Web site: <http://www.sissa.it/phdgenomics/>

Research lines:

- Bioinformatics (including Molecular Dynamics and Simulation)
- [Cerebral Cortex Development](#)
- Functional Genomics
- Neurodegeneration
- [Neurogenomics](#)
- [Prion Biology](#)
- Structural Biology
- Systems Biology

Fellowships available: 7

Admission: Academic and scientific qualifications + written exam + oral exam

Beginning of the Courses: 5 November, 2012

Evaluation of academic and scientific qualifications: 10 points

Access to Written Exam: all candidates

Evaluation of Written Exam: 40 points

Access to Oral Exam: minimum mark of 28/40 in the written exam evaluation

Evaluation of Oral Exam: 50 points
