Challenge your assumptions

The future is better than you think

12 June 2013

“Challenge your Assumptions”: an evening meeting to discuss about new technologies and trends and how they will affect our future. Everything started with RE-SEED, a project that supports the employment of young graduates, promoted by SISSA, Università di Udine and Friuli Innovazione. During the event, to be held at THE HUB city center location, participants will also debate on how to foster technology transfer from the research to the productive sector.

Friday 14th June, 8pm
THE HUB, via di Cavana 14, Trieste

The International School for Advanced Studies (SISSA) of Trieste presents Challenge Your Assumptions: an evening event to discover and comprehend ever-evolving trends and technologies, to conceive new ideas and proposals to build the future and boost technology transfer.
The event will be ideally divided into two parts. In the first one, participants will address the theme of cutting-edge technologies and their impact on our lives and on the productive sector: artificial intelligence, robotics, biotechnology, nanotechnology, medicine and neuroscience, entrepreneurship, energy and the environment, design and future production. In the second half of the evening participants will get in the game to explore various ideas and opportunities regarding enterprising projects, discussing in small groups the themes that will emerge.

The initiative is part of the RE-SEED project that aims at sustaining the employment of young people with higher education favoring the creation of start-up companies, private enterprises set up with the support of research institutes, to create new cutting-edge technology companies. The three partners promoting the project are SISSA, Università di Udine and Friuli Innovazione.

Entrance is free, but (online) registration is required (up to a maximum of 100 participants).
