SISSA offers a postgraduate fellowship by means of a competition based on academic qualifications only.

**Title of the project:** "Machine Learning for Crystal Structure Prediction".

**Period:** 3 month starting from the end of April or the beginning of May, 2018.

**Amount of the fellowship:** € 1000,00 net per month.

Research activity: Machine Learning, DFT calculations, Crystal structure prediction.

Requirements: degree in Physics, experience in Machine Learning.

CUP: G91J12000690001

Applications (see attached form), **together with all the required documents**, must reach the School to the following address: protocollo@sissa.it **no later than 12.00 hrs. on 20 April, 2018**.

For information: phd@sissa.it
