

## SISSA WELCOMES APPLICATIONS FOR PHD FELLOWSHIPS IN PHYSICS AND CHEMISTRY OF BIOLOGICAL SYSTEMS STARTING IN OCTOBER 2024

SISSA is a scientific centre of excellence on the international academic scene in the fields of **Physics, Mathematics and Neuroscience**. The school offers first-rate facilities, internationally renowned faculty members, and a very lively and dynamic scientific atmosphere thanks to the presence of nearly 100 postdocs and 300 PhD students!

SISSA welcomes applications for **2 PhD fellowships in Physics and Chemistry of Biological Systems**, starting in October 2024. Applicants should have a solid background in Physics, Chemistry or related subjects and are expected to obtain their *Laurea Specialistica* or equivalent degree by the end of October.

Applicants are selected on a competitive basis, via online written and oral exams and taking into consideration their CVs, undergraduate transcripts, and reference letters.

For further information please check:

[www.sissa.it/sbp](http://www.sissa.it/sbp)  
[phd@sisssa.it](mailto:phd@sisssa.it)

### Research topics:

- Stat-mech of complex molecular systems
- Biomolecular simulations
- Simulations of rare events
- Soft matter physics
- Polymer physics

Applications should be submitted online at:

<https://pica.cineca.it/sissa/phd-physchem-02-2024>

Candidates will be selected shortly after the **application deadline of August 26, 2024**

Online written and oral exams will be held on September 9 to 11, 2024

**SISSA**
