

RESEARCH TRAINING FELLOWSHIPS FOR POSTGRADUATE STUDENTS

- **Fields**

Astrophysics and Cosmology
Astroparticle Physics
Cognitive Neuroscience
Functional and Structural Genomics
Mathematical Analysis, Modelling and Applications
Mathematical Physics and Geometry
Neurobiology
Physics and Chemistry of Biological Systems
Statistical Physics
Theory and Numerical Simulation of Condensed Matter
Theoretical Particle Physics

- **Amount and duration of the fellowship**

Amount of the fellowship: € 1.000,00 *monthly gross*
Duration of the period of study and research: from 1 to 6 months

A contribution towards documented travel expenses, of up to a maximum of 300,00 € gross, will be given to Italian and EC citizens who are not resident in the Trieste Province. Candidates coming from non-EC countries will be given up to € 1000,00 gross; should the cost of the ticket exceed € 1000,00 the difference will be deducted from the first instalment of the fellowship.

- **Requirements:**

Qualification needed for this selection:

- Bachelor of Science or equivalent;
- English knowledge.

- **Evaluation criteria of the Committee:**

- Curriculum vitae et studiorum (15 points);
- Reference letters (5 points);

- Compatibility between research items candidates and SISSA research activity (10 points).

Eligibility with 21/30 points.

Candidates whose research interests are not compatible with the scientific research lines pursued by the professors of the School will not be considered eligible.

- **Deadline for submission of applications**

Applications must reach the School **no later than 13.00 hrs.(Italian time) of June 20, 2019** by PICA platform: <https://pica.cineca.it/sissa/>.

If monthly grants should remain available, the announcement will be reopened.

Each candidate can apply for a maximum of 2 fields at a time.
